ABOUT ME

Hi' , I'm a student in the Higher School of Computer Science 08th May 1945 in Sidi Bel Abbes, I am MERN Fullstack developper with 2 years of experience. I am passionate about creating clean, responsive and functional solutions that make a real difference for users.

EXPERIENCE

FullStack Dev

Jun – Sep 2025

- Built a responsive quiz platform for medical students.
- Developed the frontend using React.js, and the backend using Express.js + MongoDB.
- Focused on delivering a smooth and intuitive user experience across devices.

Back-end Developer

Aug 2025 – Present

- Currently working on a waste-trade marketplace connecting individuals, sellers, and companies.
- Designing clear, scalable backend APIs using Next.js and Prisma ORM.
- Contributing to both frontend and backend development.

Back-end / ML Developer – Youth Ministry Hackathon

01-03 Nov 2025

- Contributed to the “دار الشباب الافتراضية” (Virtual Youth House) application connecting youth to youth centers.
- Built scalable backend APIs using Express.js + MongoDB.
- Integrated multiple API keys including:
 - Smart Recommendation API
 - Grok Chatbot API
- Achieved 2nd place in the Ministry of Youth Hackathon and implemented various improvements post-event.
